# Integrated urban development plans

the most important intervention tool  
for coordinating both regional and thematic operational  
programs focused on urban issues

The aim of IUDP

to coordinate activities and concentrate resources on solving the  
most serious problems identified in urban areas.

# Key parameters of IUDP

- a set of content and time related projects that are implemented in
  - a selected problem town zone
  - the town as a whole, within a certain topic (like public transport, town vegetation, etc.)
- to achieve a common goal or goals of the area
- the involvement and cooperation of public, private and voluntary sector → successful strategic planning in cities

- **Integrated operational program**  
intervention area- Improving the environment in  
problematic housing estates
- **Regional operational programs**  
within 7 regional OP (Prague region is not included)
- **Other thematic OP – projects „below line“**  
fulfillment of an integrated approach

# IUDP within Integrated OP

- **Global objective: Enhancing of the quality of life and environment for inhabitants of problematic housing estates**
- **Coherent area with at least 500 flats in towns over 20 000 inhabitants**
- **Criteria of a deprivated zone follow Article No 47 of Regulation (EC) No 1828/2006**

MINISTRY  
OF REGIONAL  
DEVELOPMENT CZ

# Supported activities
